

Bureau of Reclamation, Interior

§ 404.34

§ 404.28 Is it possible to expedite the completion of an appraisal investigation or feasibility study?

Yes. If Reclamation determines that a community or groups of communities to be served by a proposed rural water supply project has urgent and compelling water needs, Reclamation will, to the maximum extent practicable, expedite appraisal investigations and reports and feasibility studies and reports conducted under this program.

§ 404.29 Can the level of effort needed to complete an appraisal investigation or feasibility study be scaled to be proportional to the size and cost of the proposed project?

Yes. In general, the level of effort for an appraisal investigation or feasibility study should be scaled to take into consideration the total size, cost, and complexity of the proposed rural water supply project in order to reduce the total cost of the investigation or study. However, the effort to scale the appraisal investigation or feasibility study must not diminish the quality of the data, the analysis, or the overall completeness of the investigation or study.

Subpart B—Cost-Sharing

§ 404.30 How much Federal funding can Reclamation provide for the completion of an appraisal investigation?

In general, Reclamation will be responsible for 100 percent of the cost of an appraisal investigation conducted under § 404.11(a) or (b), up to \$200,000. If the cost of the appraisal investigation exceeds \$200,000, your cost-share will be 50 percent of the amount exceeding \$200,000.

§ 404.31 What forms of non-Federal cost-share payment are acceptable?

The non-Federal cost-share for an appraisal investigation or a feasibility study may be provided in the form of money or in-kind services that Reclamation determines are necessary and reasonable for the conduct and completion of the investigation or study. The determination of allowability, allocability, and reasonableness is governed by the Cost Principles of the Of-

fice of Management and Budget, codified at 2 CFR 220, 225, and 230, and in the Federal Acquisitions Regulations, Part 312.

§ 404.32 Can Reclamation reduce the non-Federal cost-share required for an appraisal investigation?

Yes. Reclamation may reduce the non-Federal cost-share for appraisal investigations below 50 percent of the costs exceeding \$200,000, if:

(a) Reclamation determines that there is an overwhelming Federal interest in conducting the appraisal investigation, and you demonstrate financial hardship. Financial hardship will be determined in accordance with Reclamation's official policies, guidance and standards, which are available at your local Reclamation office; and

(b) Reclamation consults with other Federal agencies that are partners in the project and determines that a reduction in the non-Federal cost-share is appropriate.

§ 404.33 How much Federal funding can Reclamation provide for the completion of a feasibility study?

In general, Reclamation will be responsible for 50 percent of the cost of a feasibility study conducted under § 404.11(a) or (b). You will be responsible to pay for the remaining 50 percent of the cost of the study using non-Federal funding.

§ 404.34 Can Reclamation reduce the amount of non-Federal cost-share required for a feasibility study?

Yes. Reclamation may reduce the non-Federal cost-share required for a feasibility study to an amount less than 50 percent of the study costs if:

(a) Reclamation determines that there is an overwhelming Federal interest in conducting the feasibility study, and you demonstrate financial hardship. Financial hardship will be determined in accordance with Reclamation's standards, which are available at your local Reclamation office; and

(b) Reclamation consults with other Federal agencies that are partners in the project and determines that a reduction in the non-Federal cost-share is appropriate.
